

Dear Anne - your letter has been
I send you enclosed the account
of the things in the
French box 2 - a little account of
the money expended which only
one item is for publication -
that is that acct. of money received
by means of from different persons
for the June - you see that
the acknowledgement of the money
is 80 dollars from you - of
course you will explain that
as you please - I make your
own acknowledgment with your
own name to the ladies of the
committee who gave you the
money - The box is valued as
no longer than it is at 800
I have every thing down - of
course it does not cost this

but be sure to take the
fact - any where where it
won't get into the papers

The Statute of the
Mass women should be for
\$100 - if bought by a single
person for less - but I don't
say it may be presented
to Garrison though I should
rather as Garrison has no voice
in the of this kind than
Mr. Tracy should have it &
if he likes it I wish he
could - however do as you see
best & it is bought by subscrip-
tion - which is not yet full
I will send the subscribers

Must not be sent in time
for the Basco Gazette

3^d I send a fragment for
the Basco Gazette contain-
ing above the amount of
pay necessary for Paris
of course you will be in time
to bring it to the proper
perspective with the rest
send out about 1500
in case of other boxes -
add any papers of the third
these may be written by me
my theme

I shall send the book
few little ordinary trifles that
enough in themselves but which
the people who send them

very valuable because I got
them on the right side of
Europe - I got the little white
glass pitcher at Frankfurt it
is Bohemian glass & ought to have
been rose colour but there was a
mistake - It imports many Nobby
with fine blue cream in it I & think
to my health I know this it is
very ^{pleasing} ~~pleasing~~ ^{comforting} as I wish
give the little blue one to old
Maudie - many as directed - I
say that finding a passport for all
things I send with my best love
this glass of Bohemian glass - which
I have smuggled in my pocket
through so many custom houses
that it has become clear to me
& I think it is beauty -

I think Anti notes about them
other things - there will be
a parcel for Aunt Mary -
2 pairs of boots for you - we
ordered only two pair as we feared
they would not fit -

Yours ever &c
